However, a pilot scheme "National project for Repair, Renovation and Restoration of Water Bodies Directly Linked to Agriculture" was approved in line with the announcement made by the Finance Minister in his Budget speech 2004-05 in this regard. The pilot scheme is for a total outlay of Rs. 300 crore for the remaining period of Tenth Five Year Plan. The scheme envisages taking up pilot projects by the States in one or two districts for restoration of water bodies having original culturable command area of 40 ha. upto 2000 ha. States are to submit Detailed Project Report (DPR) as per guidelines of the scheme for approval of projects by Ministry of Water Resources. Funding pattern is 75:25 (Centre:State). The aims and objectives of the scheme are to restore and augment the storage capacity of the water bodies and to recover and extend their lost irrigation potential. However, a broad view further can be taken after the successful completion of pilot projects.

(c) The funding is under the State Sector Schemes and Central share is to be released to States as grant. The States are to release their share for the projects.

(d) For Orissa, two pilot projects for Ganjam and Gajapati districts were approved by Government of India. Under the projects, works for 68 water bodies in District Ganjam and 59 water bodies in District Gajapati are to be taken up. These water bodies are mostly Minor Irrigation Tanks constructed since long (more than 20 years) with design irrigation potential between 40 ha. to 2000 ha. Storage capacity of the water bodies is proposed to be revived to restore the lost irrigation potential.
